pavilion wide lowboard: 75" w x 18.5" d x 20" h, shown in walnut

bo narrow lowboard (772): walnut, 42" w x 19.5" d x 24.5" h

pavilion narrow lowboard (86): walnut, 37.5" w x 18.5" d x 20" h

flip-down door for easy access to A/V components

infra-red (IR) Remote Link works with most modern A/V components

full extension drawer for media storage

bo wide lowboard (773): walnut, 75" w x 19.5" d x 24.5" h

pavilion wide lowboard (87): walnut, 75" w x 18.5" d x 20" h

The Remote Link uses a standard 38kHz IR Signal. Your A/V components must be able to receive an infra-Red (IR) 38kHz signal (most modern A/V components do). All units are tested before leaving the factory. Full troubleshooting documentation is available.

Showcase your new television with our **Bo** and **Pavilion TV + Hi-Fi Lowboards**. These innovative and functional designs make it possible for you to hide your A/V equipment behind an elegant design while at the same time you can remote control your components with the infra-red (IR) Remote Link. The **Bo** and **Pavilion Lowboards** are available in two sizes. Made in Denmark.

Finish Options: Both Collections are available in Oak, Beech, Cherry, Wenge, and Walnut.
